

## DEDICATION

Forgetting their faults and cherishing their virtues: this souvenir is dedicated to six members of "Our Gang", who have gone out into the Golden West, by the long Trail in which the pony tracks point only one way. We, who knew them best, are proud to honor their memory by placing their names here, hoping that those who knew them not may think kindly of the members of our gang who have journeyed to that far land from whence no traveler has returned. May we, who now read these lines and who will also mount the pale horse to follow the same mysterious trail, be cheered by the blazes and embers of camp fires left by those who have preceded us, and when we shall enter the Gates to the City, may we be vouched for and given the Hail and Pass by these our Friends.
